OBJECTIVE

Recent B.Tech graduate in Computer Science & Engineering seeking an entry-level Software Developer or Web Developer position. Eager to apply my technical knowledge, learn from experienced professionals, and contribute to developing high-quality software solutions while continuously enhancing my skills and growing as a software professional.

TECHNICAL SKILLS

Technical Skills: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, SCSS, Node.js, Express.js, REST APIs, JWT Authentication.

Databases & Tools: MongoDB, MySQL, Git, GitHub, VS Code, Figma.

Programming & Core Concepts: Python, C, OOPs (Basic), Data Structures & Algorithms (DSA), DBMS, SDLC.

PROJECTS

AI Mock Interview Platform — *React.js, Node.js, Express.js, MongoDB, Gemini API*

- Built an AI-powered interview prep platform with 50+ role-based technical questions.
- Automated question generation and feedback, reducing manual evaluation effort.

GPS Attendance System — *React.js, Tailwind CSS, Geolocation API*

- Built a GPS-based attendance system with 10+ reusable UI components.
- Used browser geolocation APIs to record and manage location-based attendance

Web-Based macOS Clone — *React.js, Tailwind CSS, SCSS*

- Built a web-based macOS clone with draggable windows, dock navigation, and responsive UI.
- Developed reusable components to deliver a smooth desktop-like experience.

VOCATIONAL TRAINING

Full Stack Web Development Trainee — *Ancoax Technologies, Ambikapur* May 2025 – Jun 2025

- Built 3+ responsive web apps using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Designed 15+ interactive UI components and integrated RESTful APIs for dynamic data exchange.
- Ensured cross-browser compatibility and resolved 20+ frontend/backend issues.

Full Stack Web Development Trainee — *Logixhunt, Bhilai* May 2024 – Aug 2024

- Developed 5+ responsive web pages using React.js, JavaScript, HTML5, and CSS3.
- Collaborated with a team on 3+ web projects using Git and GitHub for version control.
- Assisted in deploying and testing web applications, resolving 20+ UI issues.

EDUCATION

B.Tech, Computer Science & Engineering Oct 2022 – May 2026

Government Engineering College, Ambikapur (C.G.) - (CGPA: 7.0/10)

Class XII (Higher Secondary) Jun 2020 – Mar 2022

Nav Jagriti H S School Champa (Janjgir Champa (C.G.)) (58%)

Class X (Secondary) Jun 2019 – Mar 2020

Nav Jagriti H S School Champa (Janjgir Champa (C.G.)) (69%)

CERTIFICATIONS

- Frontend Domination Certification — Sheryians Coding School (2025)
- Full Stack Web Development Training — Logixhunt (2024)
- Web Development Internship Certificate — Ancoax Technologies (2025)
- UI/UX Design using Figma (2023)
