WORK EXPERIENCE

Full Stack Web Development Trainee — Logixhunt, Bhilai, India | May 2024 – Aug 2024

- Developed 5+ responsive web pages using React.js, JavaScript, HTML5, and CSS3, improving usability across desktop and mobile devices.
- Implemented modern UI/UX best practices and responsive web design techniques, improving user experience across multiple devices.
- Collaborated with a cross-functional development team on 3+ web projects, using Git and GitHub for version control and code collaboration.
- Assisted in deploying, testing, and maintaining web applications, resolving 20+ UI and functionality defects prior to release.

Web Development Intern — Ancoax Technology, Ambikapur, India | May 2025 – Jun 2025

- Engineered 3+ responsive full stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Built 15+ interactive UI components using HTML5, CSS3, JavaScript, and React.js, following responsive design principles.
- Designed and integrated RESTful APIs to support dynamic data exchange, ensuring compatibility across 5+ major browsers and devices.
- Debugged and resolved 20+ frontend and backend issues, strengthening full stack development and troubleshooting skills.

PROJECTS

AI Mock Interview Platform | Tech Stack: React.js, Node.js, Express.js, MongoDB, Gemini API, Tailwind CSS

- Engineered an AI-powered interview preparation platform delivering role-based technical interview questions with automated feedback analysis, reducing manual evaluation effort.
- Designed and developed 15+ responsive user interface screens and integrated 5+ backend REST APIs with MongoDB for user session management.
- Optimized application performance and responsiveness for smartphones, tablets, and desktop computers.

GPS Attendance System | Tech Stack: React.js, Tailwind CSS, Geolocation API

- Built a GPS-based attendance tracking system using React.js and Tailwind CSS with 10+ reusable UI components.

- Integrated browser Geolocation APIs to record and manage location-based attendance data in real time.
- Developed a responsive interface optimized for 3+ device categories, improving development efficiency through reusable React components and utility-first Tailwind CSS styling.
